

Amaan Shaikh

Web Developer

📍 Mumbai | ✉ amaanshaikh786420@gmail.com | 🔗 LinkedIn | 🐙 GitHub

PROFESSIONAL SUMMARY

I am a final year engineering student passionate about web development, especially backend development. My areas of expertise include **JavaScript, Node.js, React.js, MongoDB and MySQL** along with experience in **Kafka, Redis, and Socket.io**. I have successfully developed and implemented projects using these technologies. Additionally, I have practical experience in testing, including **Test-Driven Development (TDD)** with **Jest**. I'm excited to work for your organisation where I can contribute significantly to the growth of the business while also expanding my knowledge and expertise in these fields.

PROJECTS

CAMPUS CONNECT

📅 05/2024 - Present

Campus Connect is a website built with **JavaScript, Nodejs, TypeScript, React, MongoDB, Express and Jest** that allows college students to share campus events.

- Committees can post their events, and committee heads can request permission for hosting events from the faculty incharge directly through the portal.
- The website is being developed while following TDD and employing SCRUM agile methodology.
- Unit and Integration tests are written in Jest and project management is done using JIRA
- Github Link: <https://github.com/AmaanRS/CampusConnect>
- **Website Link:** 🖱 CampusConnect

WEB CHAT APPLICATION

📅 01/2024 - 04/2024

A WhatsApp Web like Chat App created using **MERN** stack and powered by **Socket.io, Kafka, Redis**.

- Add other users as friends
- Send and receive messages to friends whether online or offline
- Scalable upto 1,000 users
- Github Link : https://github.com/AmaanRS/Web_Chat_Application

EXPERIENCE

Backend Developer Intern at Acceligents

📅 09/2024 - 12/2024

- Responsible for creating and managing APIs.
- Ensured efficient communication between the frontend and backend.
- Collaborated with the team to maintain the functionality of the application.

EXPERIENCE

B.E in Information Technology Engineering from Vidyavardhini's College of Science and Technology

📅 2021 - 2025 CGPA - 8
